HISTORY OF THE COUNTS OF BIANDRATE

by *Baron Frédéric de Gingins-la-Sarraz*

This short book, with the main text in French, was published in 1847 by the “Imprimerie Royale” of Turin. It is reprinted from the *Mémoires de l'Académie des Sciences de Turin*, Vol. 10, series II.

The work is divided into several sections, as follows:

- Part 1: A note on the origin and the possessions of the *Comtes de Biandrate* in the 11th and 12th centuries (16 pages)
- Part 2: Genealogy of the *Comtes de Biandrate du Valais* (18 pages plus 2 tables)
- Documents: Transcripts of 16 sources (in Latin) (18 pages)
- Appendix A: Transcript of a manuscript (in Italian) on the origin and influence of the counts of Biandrate (8 pages)
- Appendix B: Notes and additions (in French) to the main text (3 pages plus 1 table)

The online edition is presented as interlinked PDF files, scanned from the original source in the library of the Foundation for Medieval Genealogy (FMG). The file structure is designed for Windows operating systems using Internet Explorer. Users of other operating systems who encounter any problems should please inform the FMG at info@fmg.ac

This edition is supplied to FMG website users for personal study only. Permission is given to make a single printed copy from the file. Although the original source is out of copyright, copyright in this format is vested in the FMG.
